

iPassConnect™ 2.35 for PocketPC® Release Notes

Version: 1.1, September 2004

This document contains the most recent information on iPassConnect 2.35 for PocketPC, including:

- Enhancements
- Known issues
- System requirements

Enhancements

Enhancements in this version of iPassConnect include:

- **GIS Support:** iPassConnect supports GIS-compliant access points, such as those in the T-Mobile network.
- **PocketPC 2002 and PocketPC 2003:** iPassConnect 2.35 is supported on both the PocketPC 2002 and PocketPC 2003 operating systems.
- **Wayport Network:** iPassConnect may now connect to Wayport network access points.

Known Issues

The following issues are known for iPassConnect 2.35:

- **iPassConnect Icons:** installing iPassConnect 2.35 will create two iPassConnect icons in the **Program** folder.
- **SQM Messaging for Successful Connection:** In SQM data, when a successful connection is made, the Connection Status Code will always appear as "-1" and the Status Message is always "Broadband access client received unexpected message type".
- **STSN Hotspots:** iPassConnect 2.35 cannot connect to STSN hotspots.
- **T-Mobile Logoff:** After connecting to a T-Mobile access point and then disconnecting, you will not be logged off the T-Mobile network. In order to log off, you must power down your device for 60 seconds, and can then restart normally.

System Requirements

To support iPassConnect, your PDA must meet the following requirements:

- Microsoft PocketPC 2002 or 2003 operating system
- At least 1.5 MB free disk space
- At least one connectivity device, depending on your connection type:
 - A modem for a dial-up connection
 - An Ethernet card for a wired broadband connection
 - An 802.11b wireless card for a wireless broadband connection.

About iPass

iPass Inc. delivers enterprises simple, secure and manageable connectivity services for mobile workers as they move between office, home, and remote locations. iPass combines its global network of dial-up, Ethernet and the world's largest Wi-Fi footprint with support for campus wireless LANs and home broadband connections to deliver a unified and comprehensive solution. The award-winning iPassConnect™ user interface, centralized management, leading security

features and powerful policy enforcement have made iPass services the choice of hundreds of Global 2000 corporations including General Motors, Dow Corning and Underwriters Laboratories. Founded in 1996, iPass is headquartered in Redwood Shores, California, with offices throughout North America, Europe and Asia Pacific.
