

Get Started with LGA One Portal

A Customise Web Portal to View your Business Network Data through a Single Pane of Glass

What you get:

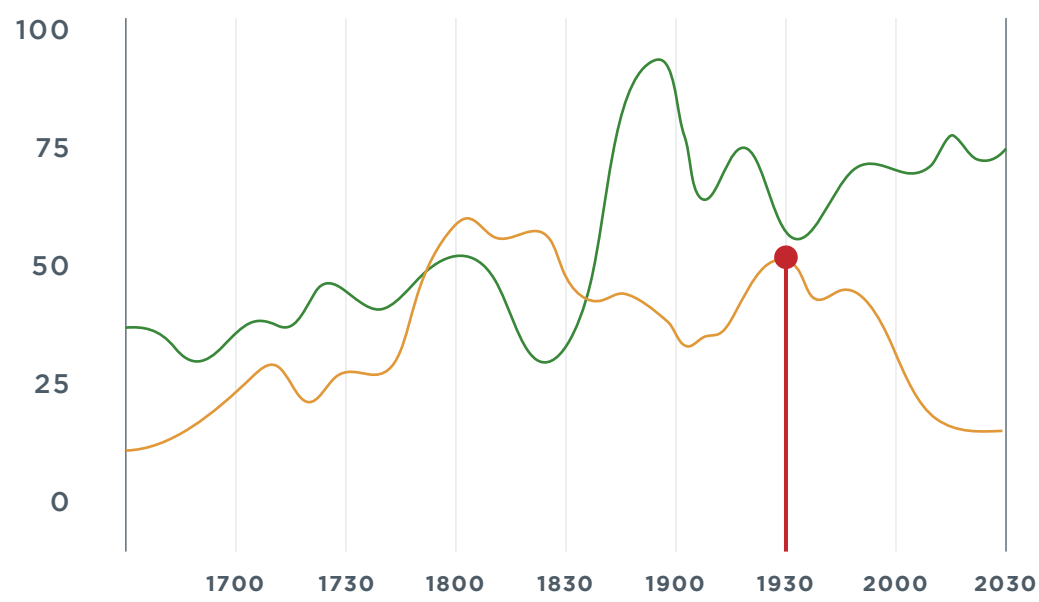

**Network
Visibility**

**Real-Time
Data**

**Archived
Report Access**

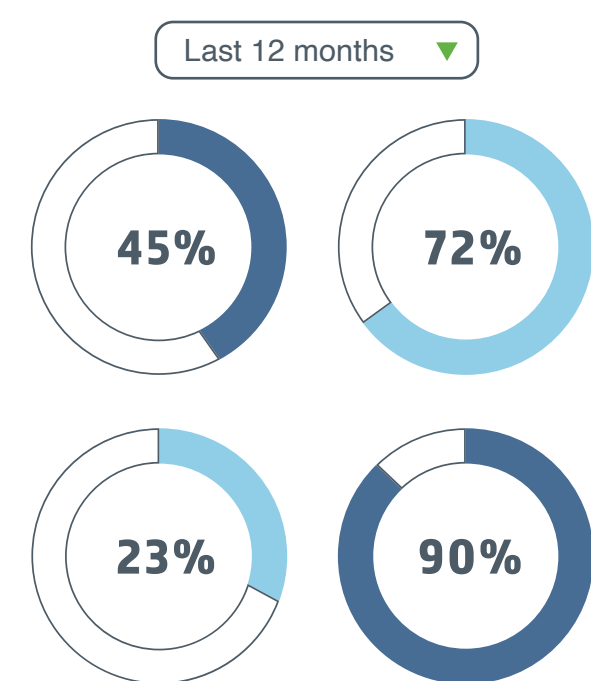

View detailed bandwidth utilisation graphs for lines subscribed with LGA

View your bandwidth consumption and network latency data through a single pane of glass. The view is customisable from the last 30 minutes, up to the last 30 days.

Access archived reports up to last 12 months

Get data on your bandwidth utilisation for your reporting and compliance purposes. View patterns and pick up trends on unusual bandwidth spikes or dips with up to 12 months of historical data.
